Full Stack Development | Coding Ninjas | JAN 2023
Boomi Associate Dev | Dell Boomi | MAR 2022

EDUCATION

Rajalakshmi Engineering College ***2018 - 2021***
Bachelor of Engineering. Chennai, TN 86

S.A.P.T.C College ***2016 – 2018***
Diploma of Electronics and Robotics Engineering. Thellar, TN 98.4

SKILLS

- *JAVASCRIPT*	- *PYTHON*	- *HTML*	- *CSS*	- *SASS*
- *NODE JS*	- *EXPRESS JS*	- *NOTI JS*	- *JQUERY*	- *COOKIES*
- *PASSPORT JS*	- *BOOTSTRAP*	- *EJS*	- *LAYOUTS*	- *POSTMAN*
- *GITHUB AND GIT*	- *MONGOOSE*	- *MONGODB*	- *ATLAS*	- *SASS*
- *NODEMON*	- *API CREATION*	- *OOPS*	- *NOSQL*	- *REACT JS*

PROJECTS

- **SAP TO QADNA AND QADEU** Feb 2024 - Mar 2024
  ~ Developed 3 Highly Complex Interfaces gained knowleged on QAD systems plants.
- **SAP TO 4FLOWCLOUD, SLMAPP, MESAPP** Oct 2023 - Jan 2024
  ~ Developed 6 Complex Interfaces gained knowleged on 4flow, SLMAPP MESAPP.
- **QAD TO SAP AND EDW [SHIPPERS]** Sep 2023 - Sep 2023
  ~ Developed 2 Interfaces gained knowleged on EDW and QAD systems.
- **TPDM TO TCPLM [TRIM PRODUCT DATA]** Dec 2022 - Feb 2023
  ~ Developed 3 Highly Complex Interfaces gained knowleged on flatfiles profiles.
- **WORKDAY TO PROVISIONAL_DB [CONTRACTOR]** Aug 2022 - Sep 2022
  ~ Developed 1 Highly Complex Interfaces gained knowleged on Database Handling.
- **SAP TO RFQ [LIVESOURCE]** June 2022 - July 2022
  ~ Developed 1 Highly Complex Interfaces gained knowleged on Livesource.
- **CUSTOM SYSTEMS TO QAD [PO SHIPPER]** May 2022 - May 2022
  ~ Developed 2 Highly Complex Interfaces gained knowleged on Custom systems.
- **CUSTOM SYSTEMS TO QAD [SALESORDER]** Jan 2022 - Apr 2022
  ~ Developed 2 Highly Complex Interfaces gained knowleged on Salesorders.
- **ARIBA TO QADASIA [PO CREATE]** Sep 2021 - Dec 2021
  ~ Developed 4 Highly Complex Interfaces gained knowleged on Ariba and QAD systems.
- **ADDTIONAL ON TCS** May 2021 - Present
  ~ Developed 10+ Interfaces on several source and targets with easy and medium level projects over this time line
  ~ Got Knowldge on Apigee and Api Management and Integrations.
  ~ Completed 4 Apigee interfaces with SAP and QAD systems.
  ~ Got Complete knowledge on Git and Github. Repo Handling on both Azure and github, Python Scripting for automated testing and deployments

ADDITIONAL PROJECTS :

• IMDB CLONE

- Designed and developed an IMDb-inspired online movie database with user-friendly and comprehensive movie information.
- Search results will updated while typing, suggestions of movie list.
- **HTML, CSS, JS, SASS, API, NODE JS, EXPRESS JS, GIT**

• PLACEMENT CELL

- Created a robust Placement Cell system to streamline student placement activities by leveraging test scores and course completion data for efficient and effective career placement.
- Key features include job matching, student profile management, test score analytics, and real-time job placement tracking.
- **HTML, CSS, JS, SASS, API, NODE JS, PASSPORT, NOTI JS, GIT, EJS, NODEMON, MONGODB, MONGOOSE, COOKIES**

• EMPLOYEE REVIEW SYSTEM [ERS]

- Designed and developed an Employee Review System that empowers colleagues to provide insightful ratings and feedback, enhancing performance evaluations and fostering professional growth.
- Designed an ERS with distinct admin and employee access levels, empowering employees to take on administrative roles, implement stringent access controls, rate their colleagues, manage records, and facilitate peer-to-peer employee reviews**.**
- **HTML, CSS, JS, SASS, API, NODE JS, PASSPORT, NOTI JS, EJS, GIT, NODEMON, MONGODB, MONGOOSE, COOKIES**

• ECOMMERCE API

- Crafted a versatile Ecommerce API, enabling seamless integration and interaction with online shopping platforms, offering essential functionalities to enhance user experience and streamline online retail operations.
- The Ecommerce API offers essential operations, GET for retrieving data, SHOW for displaying product lists, UPDATE for modifying the list and DELETE for removing items, providing a comprehensive suite of functionalities to manage and manipulate ecommerce data efficiently.
- **HTML, CSS, JS, SASS, API, NODE JS, PASSPORT JS, GIT, EJS, NODEMON, MONGODB, MONGOOSE, COOKIES**

• ADVANCED AUTOMATED GUILDED VECHICLE [AGV]

- An interactive Maze Solver Website that efficiently solves mazes, explores all possible paths, calculates route possibilities, and showcases the shortest path, with an intuitive interface for user-friendly exploration.
- Maze Solving, Path Exploration, Route Count, Optimal Path, User-Friendly Interface, Interactive Options, Comprehensive Maze Analysis, Enhanced Problem-Solving
- **HTML, CSS, JS, SCSS, JQUERY**

ADDITIONAL UNPAID LIVE PROJECTS :

- Website portfolio
- Wishmypartner.com
- Freelance website designing.
- Staic web pages
- Dynamic pages
- API’s
- Apigee API management and routing ,
- Load balancer using Apigee.
